Abt, I. A.: Amaurotic family idiocy 59
Acidosis and mineral balance 335
Adenoiditis, acute 390
Adenoids of nasopharynx, torticollis after removal of 171
Albumin in the urines of normal children 139
Albuminuria in infants 246
Albuminuria, lordotic, in school children 392
Allergy 382
Alopecia epidemic due to microsporon 392
Amaurotic family idiocy 59
Anemia, splenic 316
Anemia, splenic, a parasitic disease 317
Anemia, splenic, due to Leishman's parasite, fever curve in 472
Appendix, inflammatory changes in 299
Arterial rigidity in children 315
Arteriosclerosis in children 315

Bacillus coli in infections of urinary tract in children 319
Bacteria, capsulated, staining of, in body fluids 165
Bacteria, count of in separator cream 440
Bevan, A. D.: Congenital pyloric stenosis 85
Blackfan, K. D.: Significance of albumin in the urines of normal children ... 139
Blood, ammonia in, of dogs and cats necessary to produce ammonia tetany .. 166
Blood, bacteriology of, in early life 193
Blood-cells, does the human thymus produce? 440
Blood-coagulation and hemophilia 316
Blood, infants', anti-infectious power of 165
Blood of nurslings, sugar content 441
Blood-pressure in childhood 84
Blood-pressure in children 440
Blood-transfusion in infants by means of glass tubes 376
Breasts, continuous function of 310
Breast-milk, influence of on intestinal flora of sucklings 310
Brem, W. V.: Two cases of influenzal meningitis. Patients treated with hexamethylenamin 415
Brennemann, J.: A contribution to our knowledge of the etiology and nature of hard curds in infants' stools 341

Calcium metabolism in infantile tetany 384
Caldwell, E. W.: Carpal ossification and physical and mental development .. 113
Carpal ossification and physical and mental development 113
Cerebrospinal fluid, tubercle bacilli in, in tuberculous meningitis 37
Child, exceptional, study of 245
Chlorids in stomach contents of infants 167
Chlorin, excretion of in infancy in salt fever 73
Chorea, cardiac lesions of, salicylates in 473
Churchill, F. S.: Blood, bacteriology of, in early life 193
Clark, C. P.: Blood, bacteriology of, in early life 193
Colles' law and the new syphilitic facts 83
Courtney, Angelia M.: Studies on infant nutrition 321
Cow, diseases of, in relation to human diseases 386

PAGE

Crawford, J. L.: Metabolism of nitrogen, phosphorus and the purin substances in the new-born 203
Cream, separator, bacterial count of 440
Cretin, the body of 384
Cretinism among Jews 311
Curds, hard, in infants' stools. J. Brennemann 341
Cutaneous reactions, study of 73

Davis, D. J.: Influenzal meningitis, with especial reference to its pathology and bacteriology 249
Depot reaction in syphilis 169
Diagnosis of meningitis and conditions simulating 444
Diarrhea, chronic, and eczema, relation of human milk to, in nurslings 239
Diarrhea, summer, and infant mortality, causes of 462
Diphtheria and scarlet fever, spread of, in schools 241
Diphtheria, cutaneous 167
Diseases of the cow in relation to human diseases 386
Dunn, C. H.: Cerebrospinal meningitis, its etiology, diagnosis, prognosis and treatment 95
Duodenal tube for infants 360
Dysentery, bacillary, bacteriology of 84

Eclampsia, should mothers nurse their new-born in 384
Eczema and chronic diarrhea, relation of human milk to, in nurslings 239
Effusions, pleuritic, diagnosis of, in infancy 244
Epinephrin, production of glycosuria by, in thyroidectomized dogs 238
Exercise, effect of on pulse pressures and pulse-rate 391

Fat digestion in infancy 173
Fat metabolism 327
Feeble-mindedness, prevention of 392
Fetterolf, G.: The child's thorax in physical diagnosis 6
Fever curve in splenic anemia, due to Leishman's parasite 472
Fresh air schools 238

Gastric digestion, relation of malnutrition in infancy to 239
Gastro-intestinal tract, influence of removal of fragments of, on character of nitrogen metabolism 166
Gittings, J. C.: The child's thorax in physical diagnosis 6
Glycosuria, production of, by epinephrin in thyroidectomized dogs 238

Hamill, S. M.: Significance of albumin in the urines of normal children 139
Hemenway, J.: Constant presence of tubercle bacilli in the cerebrospinal fluid of tuberculous meningitis 37
Hemophilia and blood-coagulation 316
Hemorrhagic diseases of the new-born 387
Hess, A. F. A duodenal tube for infants 360
Holt, L. E.: Acute meningitis in infants and children 27
Hypothyroidism in nurslings and infants after weaning 75

Idiocy, amaurotic family 59
Infant feeding for purposes of instruction 76
Infant mortality 384
Infant mortality and summer diarrhea, causes of 462
Infantile paralysis 241
Infantile paralysis, chronic, treatment of 266
Infantile paralysis, clinical features of 168
Infantile paralysis, contribution to, experimental 168
